DATA PORTAL

# STEAD-FAST DATA

## COMPACT DATA-PORT SOLUTION

The Data Portal is compact in design but, large in capability. The Data Portal family of products can house a wide variety of connectivity including data, A/V, USB, and XLR options. A lift open top allows the connectors to be covered and discreetly become part of the furniture when not in use. Constructed of high-end brushed aluminum, these products are a small yet mighty way to satisfy your data power requirements.

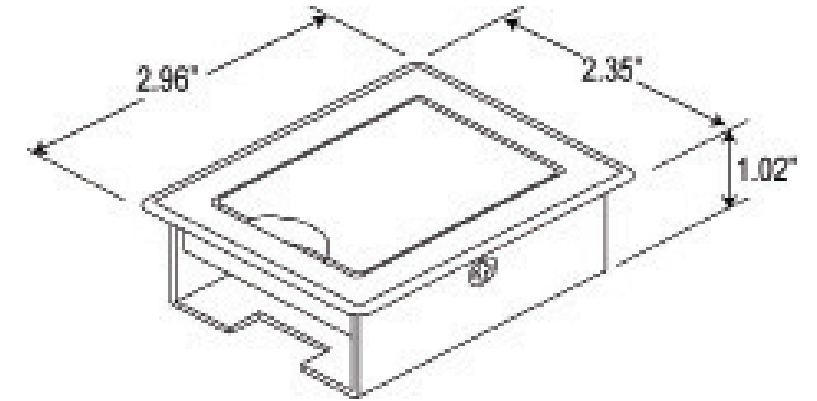

## FEATURES:

### Applications

Bezel / In-Surface

### Standard Finishes

Brushed Black Aluminum   
Brushed Aluminum
