

YOUR RELIABLE QUICK-
CHARGE SOLUTION.

In2It Low Voltage System

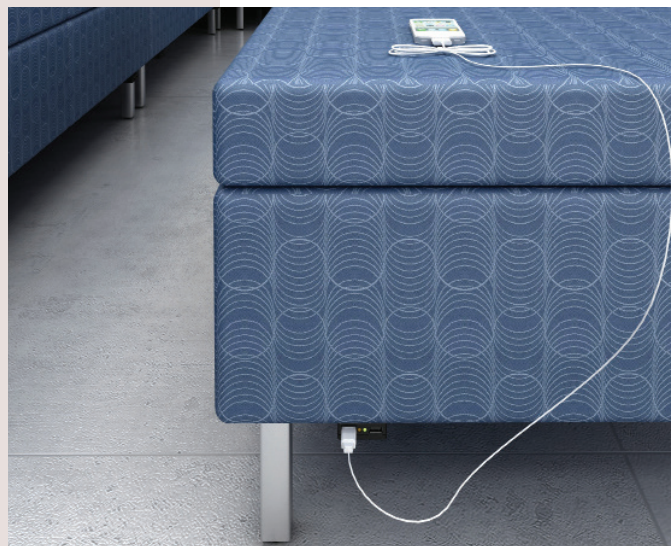

STU
DIO

BY DEKKO

Intelligence Defined.

FAST, FLEXIBLE, PORTABLE.

Developed with an eye to the future as tablets, laptops, and other devices in contract and residential environments convert to USB charging, In2it can be a discrete, flexible, retrofit plug-and-play solution, or a custom solution, offering degrees of design freedom either way.

IN2IT PROVIDES:

The Fastest Charging In the Industry

As much as we rely on our smartphones, tablets, and devices, they often let us down at the least convenient moments. Winner of the 2016 Best of NeoCon Gold and Silver Awards, the In2it Power System is way to keep them charged and ready.

It's also remarkably intelligent. In2it Power is able to recognize which devices require faster charging. It can even pause when there's an incorrect user installation. With dual 2.4-amp ports, you're no longer tethered to the wall. You and your devices have better things to do with your time.

In2It is available as an under mounting option and is UL 1310 Listed.

FEATURES:

Applications

Under-mount

Standard Plastic Finishes

- White
- Grey
- Black

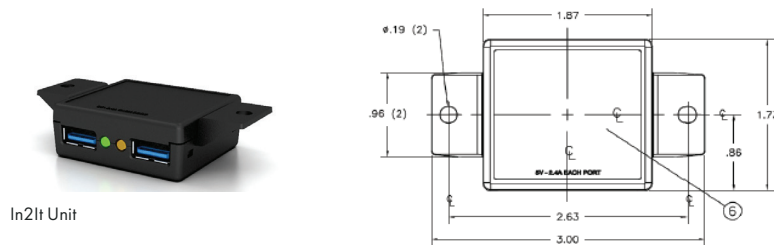

Specifications

- 2- 1.2A/5VDC USB Charging Ports
- 150W/5VDC and 250W/5VDC Power Supply
- Screw-Mount Splitters: 1 AC Power-In, 4 DC Power Out
- 16 Gage Direct Current (DC) Jumper Cables - 36", 72" or 144" Lengths
- Configured in 3, 4 and 8 Module Kits/Packs
- Global Application Via Power Cord Options*: USA NEMA 5-15 and 15 Amp 90-Degree Plug; UK 90-Degree Plug; Schuko Straight Plug
- UL 1310 Class 2 Listed
- FCC Part 15 B Approved
- Meets USB.org Battery Charging 1.2 Specifications

**Power Cord for the Global Power Supply comes standard at 72" length
Power Cord for the Global Power Supply comes standard as USA 15A Straight—USA 15A 90° Power Cords also available*

Dimensions

- In2It Standard Dimensions: 3" x 1.73"
