

# UDT SERIES

## UNIQUE AND FLEXIBLE

### UNDERTABLE MOUNTING LIKE NO-OTHER

The UDT Series of undertable units are simple in design and can be easily hidden beneath the table surface or tucked inside a table apron. Units are available with two or three power receptacles only or with options for telecom plates. Two different mounting options allow units to be mounted from the top (TM) or the sides (SM) making it easily adaptable to many table designs.

**FEATURES:****Applications**

Under-mount
