

WIRE MANAGERS
VERTICAL & HORIZONTAL

GOODBYE CORD CLUTTER

CORD MANAGEMENT MADE EASY

Get rid of cord clutter for good. Offering an extensive series of wire and cord managers, work areas can maintain clean and clutter-free by using any of the practical and flexible solutions. Vertical wire managers tackle wires and cords that run from the work surface to the floor, while our horizontal solutions organize and keep wires and cords that run along the underside out of sight. Let the wire managers do the hard work, so you don't have to.

VERTICAL & HORIZONTAL WIRE MANAGERS:

Slinky

The Slinky's flexible coil design adds a stylish element to wire management. This vertical unit is simple to install and easy to detach for reconfiguration.

Snake

The Snake can be used on stationary and height-adjustable desks to completely hide and protect all wires within the unit. This highly flexible vertical wire manager comes complete with a top mounting plate and foot.

Cable Clips

With no installation hardware required, Cable Clips simply snap on to the table leg and can house both electrical and data cables and be easily adjusted and re-adjusted by the user.

Cable Grip

The Cable Grip is a simple product that allows wire to slip into the unit and remain in place without adhesives or accessories. This versatile unit can be installed in a variety of locations using only 4 screws.

Cable Canal™

Constructed of powder coated steel, Cable Canal™ has two separate channel compartments to provide separation of power and data cabling.

Cable Channel™ & Cable Latch™

This highly effective horizontal wire manager allows users to easily add and remove wires and mount to the work surface with included tape.

Cable Comber™

The Cable Comber is a versatile wire manager which can be mounted horizontally to a modesty panel or to the underside of a work surface. Plastic channel hooks are slid into a 24" aluminum rail and end caps are used to secure the channel to the surface.
