

# JUNCTION BOX INSTALLATION

## Components & Hardware

(A) Junction Box, Qty. 1

(B) Screw and Washer,  
Qty. 1 ea, included in box

## Tools Needed

**Note:** The product is to be installed in dry locations by a licensed electrician and is not intended to support fans or luminaires and is not to be mounted to poured concrete. L'unité n'est pas conçue pour supporter des ventilateurs ou des luminaires et ne doit pas être montée sur du béton coulé.

## Installation Instructions:

- 1-** Remove 2 black pan head screws to disassemble junction box (A).
- 2-** Make all wiring connections as needed.
- 3-** Re-assemble faceplate with 2 black pan head screws as shown.
