

# HAT "L" BRACKET INSTALLATION

## Components & Hardware

## Tools Needed

**For use with:** Approved for use with compatible 42 mating components only. A furniture Power Distribution Unit is not for permanent installation as part of the building structure and not for mounting in a permanently installed furnishing such as a fixed countertop.

**Note:** \*Use caution not to pierce top surface with screws.

## Installation Instructions:

- 1-** Determine the "L" Bracket's mounting location. Ensure the connecting cable from the Power Island (Female/Female) is connected to Loop cable (Female/Male) cable prior to mounting "L" bracket.
- 2-** Align the bracket at the chosen location and rotate the bracket (A) and slide cable into slot (B) as shown (fig. 1).
- 3-** Place the "L" bracket at the chosen mounting location. Tuck cable (A) behind flange (B) and slide into second slot (C). Attach to underside of table with screws provided\*.
- 4-** Use "P" clamps and screws to support connected cables as needed.
- 5-** Repeat the bracket installation on the next table in series and connect to the next power module or interconnecting table in the system.
