

COVE™ 60 SERIES

SAY HELLO
TO EVEN MORE
POWER!

FUTURE-PROOF YOUR SPACE WITH POWER-DELIVERY

The only thing worse than running out of power is waiting for devices to recharge. Avoid the wait and low-battery anxiety forever with Cove™ 60 with 72 watt of total power. Equipped with industry-leading USB-C® Power-Delivery technology, seamlessly integrate the fastest possible charging power permitted to devices directly in your furniture applications. Both sensible and innovative, Cove™ 60 can transform an outdated space into a functional, future-proof connective hub.

FEATURES:

Mounting Capabilities
In-Surface

Applications
Ancillary Furniture
Work Surfaces
Training Tables
Soft-Sided Seating

**SPECIFICATIONS:**

- 15A/120V AC Spill-Resistant Receptacles
- USB/USB-C® Ports are Independently Controlled with 72 Watts of Total Charging Power
- (1) 12-Watt 2.4A Reversible USB-A Port
- (1) 60-Watt USB-C Power Delivery Port
- Customizable Telecom Plate Knockout (*Available on Select Models; Plate Purchased Separately*)
- Standard Cord Length: 108" with 90-Degree Plug
- Clamp and Screw Mounting Capabilities (*Screw-Mount Configurations Available Upon Request*)
- Fits Surface Thicknesses: 0.25" - 1.25"
- Optional Mounting Bracket for Surface Thicknesses Up-to 1.50"
- Table Cutout: Varies by Configuration - See Install Sheet for Details

(WITH TELECOM KNOCKOUT)

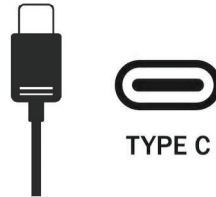

What is USB-C® Power-Delivery (PD)?

USB-PD is a fast charging technology supported by the latest iOS/Apple and Android/Google devices that deliver much higher levels of power than standard charging. See below how Cove 60 can power your latest devices.

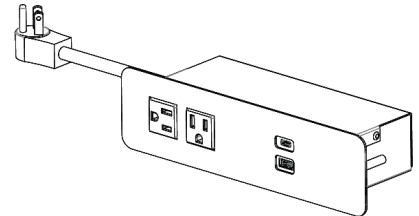

You'll Need:

DEVICE
USB-PD enabled
smartphone or tablet

USB-C® CABLE
USB-C® acts as a universal
cord between multiple devices

COVE 60
USB-PD enabled
charging port

DELIVERS **EXACT** CHARGING POWER REQUIRED
&
NEVER OVERCHARGES

How It Works:

USB-PD charging port intuitively detects the connected device to deliver the right amount of power to charge that device as fast as possible. This ensures fast charging without exceeding the required power needed, which could result in damaged circuitry.

Cove 60W Series has 72 watts of USB-C Power, 3 Amps, 20 Volts and 12 watts of USB-A Power

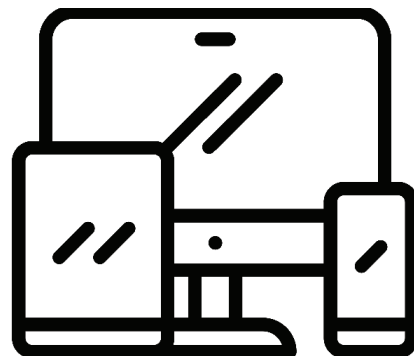

Higher Wattage = Less Charging Time

$$\text{Watts} = \text{Amps} \times \text{Volts}$$

How Much Power Does Your Device Need?

- Laptops typically require 29-100W of power
- Tablets typically require 10-30W of power
- Smart-phones typically require 10-27W of power

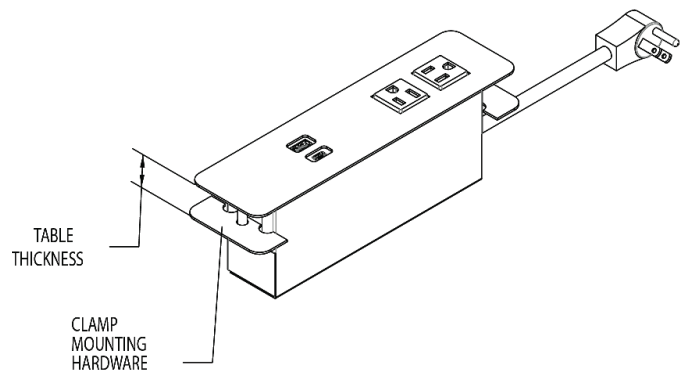

Example: If you plug a 25W PD-enabled device into Cove 60 - 72W USB-PD port, your connected device will be supplied the entire 25W to quickly replenish battery supply.

Clamp-Mount
(Featured to the right) -

- **Intended Applications:** desks, benches, tables; ideal for surfaces that provide access to back of unit
- **Tool-free installation:** unit is fastened to furniture from the rear by tightening the thumbscrews

CLAMP-MOUNT BRACKETS ARE NOT SHOWN IN LINE ART DIAGRAMS

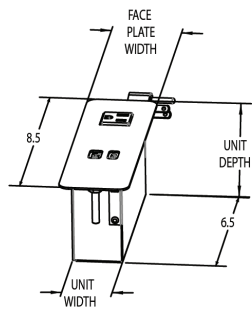

NOTE - FOR ALL UNITS SHOWN BELOW:

UNIT WIDTH = 1.80"

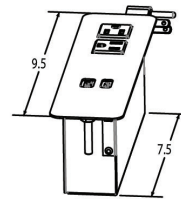

UNIT DEPTH = 3.12"

FACEPLATE WIDTH = 2.50"
