COVE™ SERIES
DAISYLINK™

VERSATILE.

ADAPTABLE.

REVOLUTIONARY.

MODULAR CONNECTIONS

Cove™ with Daisylink™ elevates spaces into power-fueled collaborative-hubs. The non-sequential 4 wire 2 circuit electrical system allows Cove™ units to daisy-chain in any arrangement - from a single infeed. Seamless spill-resistant power, USB and data are visibly accessed at surface level; modular interconnecting cables are concealed from the underside.
