

# OASIS™ SERIES

CORDED & HARDWIRED

## MODERN ELEMENTAL DESIGN

### STREAMLINED POWER FOR CONFERENCING APPLICATIONS

Oasis™ Series supplies a centralized location for meeting participants to easily access productivity-enhancing technology from directly within the conference table. The adaptable 30-inch table trough manages wires and cords within the trough and conceals them with a retractable two-panel closure lid or Trim Pivot Kit Lid. Available as an in-surface or under table (UT) unit, Oasis™ delivers versatile mounting capabilities and curated power options for all collaborative needs.

Mounting capabilities on following page...

*In-Surface/Bezel (Featured to the right) -*

- Easily integrate Oasis™ tabletop unit directly into the surface cutout. This model comes standardly equipped with a clever retractable lid that keeps wires and cables organized and out of sight. When closed, the unit sits nearly flush to the surface for an overall aesthetic finish.

*Under Table (UT) (Featured to the left) -*

- Oasis™ UT secures to the underside of the application for a completely recessed finish. When paired with the optional Trim & Lid Pivot Kits, the set of frosted glass lids flip open and close; providing easy access to integrated technology with additional cable management capabilities.

Looking for a customized finish? Fabricate your own lid (paired with the Trim Kit) to match your application for a flawless and cohesive aesthetic. *Note: Custom lids are not provided*
