Ashley Duo™ Series

STU
DIO

BY DEKKO

Elite Power Within

DISTINCT STYLE. HIGH STANDARDS.

The sleek and stylish Ashley Duo design offers finishes reflecting subtle, monochromatic elegance to bold custom colors. The Ashley Duo™ is completely integrated within a single-piece cover, eliminating dust and debris catching grooves and unsightly seams.

ASHLEY DUO™ SERIES PROVIDES:**Easy Access to Power**

Inside the attractive casing resides a most impressive power pack. Two outlets promise reliable AC power for plugged-in hardware, while the true star of the tandem is the dual 2.1 amp USB port.

Each USB port utilizes a Smart Device Recognition Chip to monitor and independently deliver the required amperage to your devices — up to 2.1 amps each — and charge them in half the time it takes with similar products on the market.

Ashley Duo™ Series is UL 1310 recognized, Class 2, FCC Part 15A approved, as well as, meets USB.org Battery Charging 1.2 specifications. The Ashley Duo™ is available in surface, under, and bezel mounting options.
