VILLA & VILLA II

Daisylink
Installation Instruction

This device complies with part 15A of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Tools Required

1 Cutout the Opening in the Worksurface

* NOTE *

Surface thickness 1in or greater with supplied hardware.
Be careful not to pierce finished surface.

2 Install VILLA or VILLA II Assembly to the Underside of the Cutout Opening

* NOTE *

Center receptacles in cutout opening as shown and mark mounting hole locations. Pre-drill holes prior to installing screws.

Cutout Opening
(5.25in X 3.00in)

Installation Instruction

This device complies with part 15A of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Tools Required

3A

Connect the installed VILLA units with Provided Cables

*** NOTE ***

Use P-Clamp and screw to secure conduit to bottom of worksurface.

3B

Connect the desired Power In-feed into the first VILLA unit and Connect Power and Data as needed.

*** NOTE ***

Use P-Clamp and screw to secure conduit to bottom of worksurface.

*** NOTE ***

Plug into an appropriate outlet that is properly installed and grounded in accordance with all local codes and regulations.

*** NOTE ***

A licensed electrician should make the hardware connections. For use on dry work surfaces or furniture only. No serviceable parts, do not disassemble.

3C

Install Safety Cover on Last VILLA Unit to Protect from Electrical Shock

*** NOTE ***

To complete installation please refer to GROMMET INSTALLATION G110555 for installation instructions of the grommet to dress up the raw cutout edge.
