CORDED & HARDWIRED

BRINGING THE TEAM TOGETHER

PRODUCTIVITY-ENHANCING SOLUTIONS FOR COLLAB SPACES

Create powerful connections with the convenience of Interact G2 Series. Available as an in-surface or under table (UT) unit, Interact G2 provides curated power, data and USB charging options essential to collaborative spaces. A convenience outlet and two additional openings on the underside of the unit accommodate additional inserts for audio/visual options and cable pass thru's for additional wire management.

Mounting capabilities on following page...

In-Surface/Bezel (Featured to the right) -

- Easily integrate Interact G2 tabletop unit directly into the surface cutout. This model comes standardly equipped with a hinged lid with brushed liner trim to prevent dust and debris from falling through the opening. The lid flips up for access and can remain open when in use, and provides a clean aesthetic when closed.

Under Table (UT) (Featured to the left) -

- As the name implies, Interact G2 UT secures to the underside of the application for a completely flush finish. When paired with the optional Trim & Lid Pivot Kits, the brushed aluminum or frosted glass lid flips open and closed, providing easy access to integrated technology with additional cable management capabilities.

Looking for a customized finish? Fabricate your own lid (paired with the Trim Kit) to match your application for a flawless and cohesive aesthetic.

Note: Custom lids are not provided
